Today’s Challenge:

YOU ARE INVITED TO
MAKE PAPER DOLLS

For this activity you will complete one paper doll. This may take 2 sessions depending on what pace is comfortable for you.

On a blank piece of construction paper, encourage student to draw a shape for their character’s head. It can be a human or animal; just be aware of varying skeletal structure and overall body parts. For example, humans have arms, octopuses have tentacles, bumblebees have wings.

Draw the remaining parts of the body: the cat ears, the long bushy tail, the vampire teeth, etc. Inspire yourself to get creative and express yourselves. Cut out and attach with tape, string or small brad fasteners.
